

URGENT ACTION NEEDED SAVE “COPS” PROGRAM!

1-877-267-2485

The U.S. House Appropriations Committee has eliminated funding for the Community Oriented Policing Services (COPS) program, including COPS Hiring Grants. The “C-J-S” bill now moves to the House floor, where the entire House of Representative will vote on it very soon

Call NOW and urge your representative to restore funding for the COPS program before the final House vote on the C-J-S budget

- The COPS program is one of the most successful and vital programs aiding state and local law enforcement. It would be impossible to maintain the current level of public safety with such drastic cuts.
- Because of state budget shortfalls, Public Safety Officers are being furloughed, laid off, and dismissed at a historical level. The COPS program has helped prevent layoffs and keep officers on the job, where they can protect the public safety
- More than 42,400 community policing grants have added more than 100,000 police officers to our streets and provide assistance funds to more than 13,600 State, local, and tribal law enforcement agencies.

Call 877-267-2485 NOW

**Tell your representative to restore funding
for the COPS program before the final
House vote on the C-J-S budget.**
